# NOT EX POST FACTO

LOS ANGELES, SATURDAY OCTOBER 18, 1890.

Kansas and Iowa Must Prohibit Some More.

The Wilson Bill Does Not Bolster Up Previous Legislation.

Simultaneous Decisions Which Render State Laws Void.

BUZZARD STORE inot so-called from the shape of their beaks, exactly), who are offering a tew articles of almost daily use in every household considerably below the actual cost BY THE GROSS. Now we are going-to name these articles for you, but desire to add first a word of caution. It is a perfectly safe bet that any store offering a few goods below their actual cost, has got a deal set up to get even in some way, and the ONLY SAFETY for you is to BUY NOTHING but the articles which we will put you "onto." Do not make the mistake of thinking you can beat their game in any other way. If you need anyone of the following items, go there and get it, but, if you see anything else in the "department" (?) that you need, COME TO US BEFORE YOU BUY and post yourselves regarding the proper price. We Original-Package Saloons Win Another Victory in the Courts
-Prohibitionists Struck With Dismay

By Telegraph to The Times. TOPEKA, KAN., Oct. 17.—[By the Associated Press.] A decision was rendered in the United States Circuit court in this city this morning that created consternation among the friends of prohibition in Kansas. The decision allows the reopening of the original package liquor houses in this State, and in effect declares that the Wilson Bill, enacted by Congress, does

not restore the power of the Kansas prohibitory law, as against original package saloons.

The facts in the case are as follows: The facts in the case are as follows: Charles Raher, agent for a Kansas City liquor house, was arrested for selling liquor in Topeka after the passage of the Wilson Bill. The defendant applied to the United States Circuit Court for a writ of habeas corpus, admitting that he sold liquor as charged, but claiming inasmuch as the Kansas prohibition law was enacted before the Wilson Bill, that the Wilson Bill did not apply. Judges Foster and Puellips sustained the view and granted the writ.

The State gave notice of an appeal

The State gave notice of an appeal to the Supreme Court.

AN IDENTICAL DECISION. CEDAR RAPIDS (Ia.), Oct. 17.-Judge Stoneman, of the Superior Court, decided today that the State Prohibitory Law was null and void so far as the sale of original packages is concerned.

The decision was in a case growing out of the seizure of beer brought from St. Louis to be sold by brewery agents last June. The beer was seized on complaint of Rev. Mr. Abrams. The brewing company asked for an injunction against Abrams and also sought to re-plevin the goods already seized. The defendant demurred that a writ of redefendant demurred that a writ of replevin would not lie to a receiver of
beer in Iowa. Judge Stoneman holds
that the Wilson Bill is not retrospective in its operation; that the Iowa law
regarding the sale of liquors in original
packages is null and yold. He gratts
a perpetual injunction to restrain
abrame from further interfering with
the business of the plaintif.

By Telegraph to The Times.

CHICAGO, Oct. 17 .- | By the Associated Press.] This morning over a thousand children were gathered in the St. Stanislaus Roman Catholic Church. where Father Barzynski was celebrating a special mass. One of the altar curtains blown toward a candle by the wind suddenly ignited, and in an instant flared up. The children rose to their feet in wild alarm, but the priest shouted to then to be seated, as there was no danger. He tore down the curtain and trampled on it, and all would have been over in two minutes had it not been for a woman, whose identity has not yet been learned.

She lost her head and screamed wildly to her children to save themselves, that the church was burning. that the church was burning.

to restrain them, the children made a
frantic rush for the entrance. Someone outside turned in a fire alarm, and when the engine and patrol wagons came clattering up, their noise added to the awful panic. The children were packed in a dense mass in the aisles, struggling and screaming, and above all this could be heard the screams and shouts of agonized par-

The Markham Boom in Kern, Tulare and Fresno.

Rousing Meeting at San Pedro Last Night-Demonstration at Ac-ton - Cahuenga Republicans

Senator W. W. Bowers, the Republican nominee for Congress in this district, arrived from the North yesterday afternoon. Senator Bowers only remained in the city for a few hours, departing last evening for San Pedro, where he addressed a large concourse of Republicans. In talking to a Times reporter yesterday the Senator said:

"For two weeks past I have been talking every night to the Republicans of Tulare, Kern and Fresno counties."

considerable experience campaigning, but never before have I seen such unanimity of Republican sentiment as I find this year. Everywhere we have had good meetings. "Honestly, I want to teil you that at no place nor at any time have I seen even one Republican who kicks on the State ticket. The enthusiasm for Markham in the three counties that I have visited is something remarkable; something, in my judgment, unheard of in the history of Southern California politics. They all want to see him. They have all heard of him and the hypnotic hand, and they want te see it and shake it.

School Superintendent Seamans spoke about fifteen minutes on school matters and retired in favor of the next Assemblyman from the Seventy-sixth District, who briefly stated his position on the issues which will be most prominent in the next Legislature. D. W. Field, Public Administrator now and for the next two years, made a few brief remarks and made way for the "Pride of San Pedro," Dr. Weidon, Coroner, who promised to do his best to transform the Demecratic party into a cadaver, and will receive his professional services free of charge immediately after the votes are counted. Senator, and next Congressman, Bowers of San Diego, closed the meeting and left the voters of San Pedro secure in the knowledge that their interests will not be overlooked in the Fifty-second Congress.

After the meeting Judge Savage invited the candidates and their friends to participate in a banquet at his home, where ample justice was done to the good things provided, and past political fights were refought, and toasts drunk to the victory which will surely come on November 4th.

#### AT SAN PEDRO

Wilmington Township Turns out to Greet the Candidates. Wilmington township turned out en masse last night to welcome the county candidates and to do honor to the hero of the hour, Hon. H. H. Markham, the next Governor of the State. San Pedro was ablaze with en-thusiasm, which found partial expression in light processions ever seen in the town. Republican clubs from San Pedro and Willight processions ever seen in the town. Republican clubs from San Pedro and Wilmington to the number of 236 men (actual count) were in line, and presented a neat tand attractive appearance as they marched and counter marched through the principal streets, finally disbanding at Swinford's Hall, where the mass meeting was held. The hall, which seats about 500, was crowded to the doors, many being unable to gain admittance.

Judge W. H. Savage was elected chairman and opened the meeting with a rousing Republican speech, which worked the audience up to the highest pitch of excitement and enthusiasm. He then introduced "Cupid" Whitney as the next County Tax Collector.

Trowbridge H. Ward followed, and in five minutes convinced the audience that the "pumpkin-rollers" had made no mistake when they stood sponsor for his nomination as County Clerk, and that Masters of Pasaden will fall far short of being master of the situation on November 4th.

When Martin G. Aguirre, Sheriff and next Sheriff, was introduced the climax of the pent-up enthusiasm was reached, and a halt had to be called to enable Martin to point out the mistake the Democracy are in aking when they resort to misrepresentation, falsification and absolute falsehood in

Cahuenga Republicans.

An enthusiastic meeting of the Republicans of Cahuenga Precinct was held at The Pass Schoolhouse Thursday evening, for the purpose of organizing a permanent Republicancy lub. The meeting was called to the purpose of organizing a permanent Republican club. The meeting was called to order by O. E. Roberts, and the object briefly stated. The following were nominated and elected as the officers of the club. President, W. B. Caldwell; secretary, O. E. Roberts; treasurer, H. Claussen; vice-president, H. H. Wilcox; assistant secretary, G. T. Gower.

The following Executive Committee was appointed: W. B. Caldwell, O. E. Roberts, H. Claussen.

well-known citizens were overheard talking politics the other day. One of them said:

"I have been trying for three or four years to get the District Attorney's office to prosecute these fellows who put a dynamite cartridge in a trout hole and killed all the fish, but I never could make it. Now, Munday used to be a member of the Petaluma Sportsmen's Club, and he is a fisher himself, and I believe that if he is elected District Attorney he'il prosecute those do listrict Attorney he'il prosecute those dynamiters to h——I and gone. D'ye see?"

The second man saw, and said that if it turned on a question of fish, he did not know but he'd have to vote for Munday, too.

The Municipal Reform Association met
Wednesday evening, when resolutions were
adopted requesting candidates for Legislature to pledge themselves to amend the

RONY" CRAIN'S TRIAL NOT YET CONCLUDED.

Mrs. Orr Secures a Divorce from Her Husband and Gets Her Property - New Cases-

The trial of the case of the People against Constable M. H. Crain is still pending in Department Six of the Superior Court beduction of testimony on the part of the peo-ple has been concluded and yesterday the defense placed witnesses on the stand. An endeavor was made to prove the good

character of Crain on the part of the de-fense. Some four or five witnesses were introduced to prove that the Fairmount Constable was a man of good reputation, honorable and fair. R. H. Carlton testified that he had heard

Crain say that he intended to arrest the two Mexicans, as he was hard up and could make \$60 apiece out of them.

But really one of the most humorous features of this case was what the prosecution

But really one of the most humorous features of this case was what the prosecution endeavored to bring out. It seems that after Crain arrested the two Mexicans he brought them back to his house and a sheep was killed.

One hair of this sheep, the prosecution endeavored to show, was given to Justice of the Peace Livesey, before whom the alieged tramps were brought.

But Superior Judge Shaw excluded this testimony. However, when Justice Livesey was put upon the stand as a witness, he stated that he desired to make an explanation. He stated that instead of receiving half of the sheep that was killed at Crain's place, he only received a quarter, and this was given to him after he had tried the two Mexicans on the charge of vagraney.

The case is still pending, and it will take at least all of today before it will be completed.

There is no question but behind this prosecution, there is merit, for the reason that it will have the effect of making the rural constabulary somewhat more discreet in the matter of arrests on the charge of vagrancy.

There is a rumor that it is merely a political prosecution. For this rumor there is not the slightest foundation. The case is brought by the District Attorney's office merely for the purpose of remedying an evil which was growing to a remarkable extent and which in time would bankrupt the county if maintained on the same basis.

GRANTED A DIVORCE.

Sarah C. Orr was yesterday granted a divorce from C. Orr by Superior Judge Mc-Kinley in Department Five. The case was tried with closed doors and only a few witnesses were examined. The ground of the application was cruelty and failure to pro-

On the stand the defendant made a spec tacte of himself. He endeavored to bring himself to tears, but in so doing he scored a complete failure. It seems that when Mrs. Orr married the defendant she was a widow with several children, and worth some property. The divorce decree gives her the title clear to all the property she had.

The Case was Dismissed. Some time ago the Federal Grand Jury indicted William Kerran of San Diego, on charge of rescuing property from a deputy collector of internal revenue at San Diego. It seems that Kerran was a deputy con-stable and had replevined certain property in the hands of an officer of the Treasur

Department.
After the indictment was returned,
United States District Attorney Cole conferred with the Department of Justice and
received instructions to dismiss the case.
This was accordingly done yesterday.

Superior Judge Clark, Two, yesterday heard the application of of John J. Willey, wherein he asked that W. J. and Rachel M. Finley be rem guardians of Stella Moore. Mr. Willey in his petition set up that he was already the guardian of two brothers and a sister of Stella, and he thought that the children all ought to be together. He furthermore alleged that he did not think that the Finleys

Five thousand people were in attendance yesterday at Agriculturai Park. The spec-tators filled every seat and box in the grand stand and stood in rows four deep for nearly an eighth of a mile in front of the stand. Hundreds and hundreds of carriages lined

the driveways, and taken altogether it was the driveways, and taken altogether it was one of the largest gatherings ever congregated on the track. The sport was very exciting, the finishes close, and the decisions correct, so that everybody wenthome completely satisfied.

The betting ring was liberally patronized and the talent faired fairly well. The short-enders, however, won lumps of money on Perl, some of the auction pool tickets paying \$100 for \$11.

The second race was a selling purse with Naicho B, Mozart and Forrester as the starters. Naicho B was a decided favorite in the betting, selling at \$25, to \$15 for Mozart and \$4 for Forrester. The horses were soon sent of after a few false starts, and, passing the stand the first time, Mozart had a head the best of it, Naicho B second and Forrester four lengths in the rear. Mozart and Naicho B raced like a double team, neck and neck, clean to the stretch, where Naicho showed in front. It was a stubborn contest down the straight, both horses straining every nerve to win. Mozart was well ridden by Casey, who got every possible ounce of speed out of his mount. Dornalich on Naicho B rode uery poorly, and almost lost the race, both horses coming under the wire neck and neck. It was a very finely drawn finish, Naicho B getting the race by a very short nose. Forrester finished last, ten lengths behind. Naicho B's victory was a very popular one, and both horse and rider were loudly cheered on their return to the stand. Paris mutuals paid \$3.75.

Peri delayed the start for a long time, acting suikily at the post and refusing to come up to the starting point. After a long delay the flag dropped to a miserable start, Conrad, the favorite, practically left at the post. Dan Murphy cut out the pace for the first quarter with Kildare at his flanks, Peri a length behind her, and Conrad five lengths behind her, and Conrad five lengths behind her, and Conrad five lengths behind her, and corned five lengths behind her, and cound five lengths behind her, and cound five lengths behind her, and cound five lengths here are ced down to the wire together. As a lockey, this youngster missed his vocation. There was no reason for him to have been left at the post, as Conrad is a horse easily controlled and very quick to get away. The time, 1:4½, is the fastest time ever made on the track, Paris mutuals paid \$12.95 on the winner.

SPECIAL PACING BACE. When this event was announced a great race of the day and everyone wanted to see it. Half of Orange county was present and they made a rush for the pool box to place their money on Silkwood. There was plenty of Hummer money to be had, and he was installed as a slight fovorite over Silkwood, seiling at \$20 to \$17 for the Orange county horse. When Silkwood made his appearance he was greeted with prolonged applause, his supporters being largely in the majority. Hummer was also greeted with cheers, compelling Garity to raise his cap several times.

Silkwood kept on drawing away and soon had a lead of three lengths, which he maintained until nearly the half, when Hummer, traveling at a 2:15 gait, drew up and on the back stretch was at Silkwood's wheel. Into the stretch they turned like a double team, and then came a battle royal down to the wire. Hummer let out a link and led by a short half lenth. Garrity drove too far outside the pole and Wilets came down on the inside, winning the heat by a short half lenth in the fast time of 2:18%.

He joined Hummer in the stretch and again they raced along together. Hummer had a little in reserve and secured a slight lead. Garrity when near the draw gate made the mistake of leaving the pole, and Willetts seeing it, cut across behind him and turned in on the inside. Then Silkwood let out a terrific burst of speed and came under the wire a scant half length the winner. Garrity went up to the judges' stand to enter a protest of foul driving, and a great throng sursed up against the judges' stand yelling for a decision. Cries of "Silkwood winst" "Hummer! Hummer!" "Give it to Hummer!" were heard all over the track. The judges dis llowed the protest and gave the heat to Silkwood. His backers went wird with delight and cheered Silkwood and Willetts, his driver, to the echo. The time was 2:20. Paris mutuals paid \$3.85.

But little betting was done in the third heat. Silkwood went off in front and led all the way around. It was a close race down the stretch, but Silkwood won by a length in 2:20.

His victory gave great satisfaction to the large crowd and a great deal of money will go to Santa Ana as a resuit.

#### BEAUTIFUL STREETS.

One of the features which most forcibly impresses itself upon Angeleños who visit other cities, less fore, been agreed between the Republifavored by nature than ours in climate can and Democratic State committees and location, is the large number of that the question whether the amend beautiful streets which are encountered-beautiful, not in the character of the buildings which align them, but parties. In the preparation of ballots, in their cleanliness and in the rows of well-kept trees on either side, to which are sometimes added neat grass plats. ballot. Residents of the large cities east of the Rocky Mountains readily combine for the purpose of beautifying the streets upon which they live and the result is

frequently very striking. We have a few really beautiful thoroughfares in Los Angeles, such, for instance, as Adams street west of Figueroa, but they are much too few and far between when we consider how much more rapidly trees grow in this climate and from how much larger a variety of trees we have to select. Graceful trees supply an agreeable shade and color to a street and tone down the glare of the cement sidewalks, which, by the way, ought all to have been of a dark gray color, instead of a blinding white. By taking a few feet from the road-bed of new streets and making lawns between sidewalk and curb a great improvement may be made in their appearance at small expense. The Philadelphia idea it that the city should plant and own the trees, care for them, and protect them by heavy penalties levied on such as injure or destroy them. In most cases, however, such improvements will be left to private enterprise. It is a matter which might profitably occupy the attention of local improvement societies or boards of trade, of which there are several in Los Angeles. Nature has been remarkably lavish in the bestowal of her gifts upon this section. Let us show that we appreciate our opportunities. There is no reason at the

the most beautiful city in the world. THE M'KINLEY BILL A LIBERAL MEASURE,

why Les Angeles should not be made

The Democrats are, of course, trying to make as much capital as possible out of the McKinley bill—by misrepresentation, naturally. Some of Democratic papers have been sending reporters around to interview store sepers and get a list of the articles that will undergo a trifling raise in price, with the object of scaring or disgusting their readers and reaching their politics through their pockets. Special efforts have been made to influence the fair sex, by statements showing what an awful increase there will be in the prices of ribbons, laces, hosiery and other accessories of the

In a speech which he recently delivered at Canton, O., McKinley got back very neatly at the Democrats on this subject by showing that the tariff bill, which has just become a law, admits nearly 50 per cent of all articles imported into the United States absolutely free of duty, while only 39 per cent were admitted free by the tariff which the McKinley Bill replaces, and only 40 per cent were proposed to be admitted free by the Mills Bill.

Thus, the McKinley Bill is a liberal bill-not too liberal, but just liberal enough. The articles admitted free are those which do not come into competition with similar products at home The McKinley Bill has for the first time sharply drawn the line between the article which may be admitted free without injury to home interests and those that may not.

#### A MISTAKE.

Upon the motion of Supervisor Davis, the Board of Supervisors has seen fit to order the publication of that important official notice to voters, the election proclamation, in but two city papers, the Herald (Democratic,) and the evening Express, studiously omitting The were stepped off and the men emptied TIMES. In this we think they are wrong, and many citizens agree with us. Whatever the private piques or prejudices of the members of the board may be, they have public duty to perform in this connection and it is desirable, on all accounts, that the largest possible proportion of the electors be given the information set forth in the proclamation. It is not to be presumed that the Supervisors attempt to run their office as if it was a private business, or to vent their private pre-judices upon individuals or newspapers in the name of their office. THE TIMES, with its extensive circulation, has in its constituency, no doubt, large numbers of voters who will not see the proclamation at all unless they read it in these columns. The part of wisdom and good faith and good sense would seem to require the board (unless they can really produce some sufficient reason for a contrary course) to order the proclamation inserted in the great religious daily, in order that it may be injected into the populace in due form.

THE general verdict of the Republi ean press of the State upon the latest Democratic campaign trick is, that it is feeble and ridiculous in the extreme and will entirely fail in the purpose for which it was intended. Much sur-The Sultan has surrendered to Germany for four million marks, his sovereign right over the portion of the East African coas leased to the German East African Com prise is also expressed that a man with Pond's record, as an employer of no less than three hundred Chinamen as late as 1889, can have the assurance to It has been arranged that a general strike of employes of the tramway lines of Vienna shall take place Sunday. In its issue of Thursday it published a reading notice about the Louisiana Lottery and a column and a half list of prizes in a Mexican lottery drawing.

What a weak cause the Democrats must have when they attempt to bolster it up by such a trivial subterfuges as the twisting of the Markham letter, addressed to a business partner on business matters, into a meaning which it was never intended to convey.

Sleep for Women.

Sleep is, under right conditions, a wonderful tonic to the human system. Few women realize its value, and yet it is said that Patti and Lucca and all the great singers and actresses and famous beauties who, like Mme. Recamier, were wondrously beautiful at an age when ordinary women retire from the festive scenes of life, have owed their well preserved beauty to sleep. A beautiful woman who at 50 has the brilliancy of youth in her eyes and skin and the animation of girlhood in her form declares that she has made it a rule all her life to retire, whenever possible, at 90 clock. And American women need the rest and refreshment which sleep alone can give to overwrought nerves and overworked systems. If sleep is not easily induced light physical exercise should be taken nightly before retiring until the blood is directed into proper channels, and then upon seeking the couch the eyelids will close as naturally as those of a healthful child.—Jenness-Miller Magazine.

HIS UTTER LACK OF DECENCY.

The Democratic Attack on Markham -Pond as an Employer of Chinese - Buckley and His Lambs

[San Bernardino Times-Index.]

Gov. Waterman came recently to San Bernardino ostensibly on friendly visit to his old neighbors and townsmen, who a few years since took him from the ranks of a private citioffice within the gift of the State. In this place for medical treatment. His that office, while discharging his duties, Gov, Waterman secured to this county by his influence, the asylum, for which the people are duly grateful. While on his visit to this city the Courier lavished upon the Governor high seas by the steward on the voyage from Philadelphia to Japan, as hereto-fore reported, is now learned to have been wrecked on the Island of Loo In accordance with this idea a petition In accordance with this idea a petition was circulated which was signed by many Democrats and a few Republicans, the editor of this paper among the number. The editor of this paper signed the call in good faith out of respect due to the high office of Governor and having a feeling of gratitude for the efforts which Governor Waterman had put forth for this county. There was every assurance that the re-

State of California—out of respect to the good people who offered their heartfelt adulations so copiously at the feet of Gov. Waterman—for the sake of our own self-respect, who were present and took part in the affair—in the name of patriotism, love of country and the good name of all that appertains to the administration of government—in the name of fair dealing—in the name of truth, honor, justice, purity, dignity, self-respect—in the name of manbood, we wish we could draw the curtain of oblivion over the scenes that followed. Gov. Waterman fell from the high estate and dignity of his office as Gov-

estate and dignity of his office as Governor of the State of California, an office with which he was invested by the will of the people, and which he should hold sacred for them—an office which above every other office should be held aloof from the methods, the wranglings, the backbitings and slanders of ward politicians. Gov. Waterman—and it should make every decent man blush to read this—Gov. Waterman, after having been tendered the estate and dignity of his office as Gov man, after having been tendered the the respects of the good citizens of his home city, went forth upon the streets of San Bernardino, and in company with other men solicited signers to a Democratic pledge to vote for Mayor Pond, and publicly declared Markham

to be a thief.

It was now clear that Gov. Waterman came to this city for the purpose of running acampaign against H. H. Markham—that the reception tendered him was calculated to assist him in his campaign, that those Republicans who were assured the reception would be a non-partisan affair were duped, the editor of this paper among the number. Language cannot express the regret and the shame that this incident will cause the shame that this incident will cause the people of this State. The machinery of the Republican party placed Gov. Waterman where he is. He even has forgotten that. The people of San Bernardino first placed his name in nomination. He has even forgotten that. The citizens, irrespective of party, tendered him their respects. He even forgot that. He forgot his office, his self respect, and went upon the street, canvassing for voters for Pond. A ward politician could do no more; could say no meaner things about his opponent. "Thief." Were it not for the office which he holds we would not close here. the shame that this incident will cause

It was strenuously denied by the miners, and afterwards this same man, who was a Democrat, confessed that he had done what he did for political purposes and apologized for his action.

Pond's Chinese Record. |San Francisco Chronicle.| The Democratic newspapers of this city asserted yesterday that nine years ago, that is, in August, 1881,Col. Markham wrote a letter to his then partner in reference to some mining operations

in reference to some mining operations in which they were engaged and said in the letter: "I hope that the Chinamen will be all right." On the strength of this letter, written from Wisconsin to the partner at the mine, and who was in charge, Col. Markham is accused of being overjoyed at having replaced the Irish workmen at the mines with Chinese.

This is clearly what a Democratic contemporary would call "ancient history." Taken in its most extreme light it means nothing more than that Col. Markham assented to the acts of his partner, who was managing the mine while he, Markham, was away in another state. This is all that Democratic ingenuity and industry can possibly make out of it.

and industry can possibly make out of it.

But let us recall a little history that is not so ancient. What have Col. Markham's critics to say to the employment of 300 Chinese by the "Aleution Islands Fishing and Mining Company, E. B. Pond president, and the "Central Alaska Company," E. B. Pond director? Which do they think the worse, the man who, nine years ago, assented to his partner's employing Chinese, or the man who, in 1889, in his capacity as president and director of two corporations, employ some three hundred Chinese?

Whether the question of employing Chinese is a factor in the present campaign every voter must decide for himself; but if it be, no honest voter can hesitate between the man who did no more than express an opinion in 1881, and the man who acqually hired 300

more than express an opinion in 1881, and the man who actually hired 300 Chinese in 1889. That is the whole issue in a nutshell, and this plain, common sense view of it certainly makes the Democratic assault on Col. Markham appear very trifling and ridicu-

Candidate Markham. Col. Markbam has concluded his can vass of the northern counties and Gen. Chipman, his northern rival in the convention, says: "Up our way the people are all for Markham." As Col. Markham was the especial candidate of the southern counties, he may con-sider that portion of the State safe for him. Nothing has transpired safe for him. Nothing has transpired since the date of the convention to cause a doubt of the wisdom of the choice of candidate then made. Col. The two Dakotas on June 1 had a membership of 1,967, and during the month made a gain of 62, which places them at 2,029. They had no assessment for July, which was very encouraging for the baby jurisdiction, and will enable them to more asily add new recruits to their growing

On July 1 there were 240,480 members re ported in good standing. This shows gain for the month of June of 1,890. Kansas is the hanner state on increase of Kansas is the banner-state on increase of membership for the month of June, showing a net gain of 308. Nebraska comes next with 275, and Massachusetts third with 249. Nevada gained 153, Minnesota 120 and Missouri 118. Texas shows a gain of 57 and Indiana made an increase of 47. Ohio, Kentucky, Tennessee, Pennsylvania, Illinois, Wisconsin, California and Georgia show losses, while those states not mentioned have credit of small gains.

This is the first time these gentlemen have been in Soutaern California for some time past. They say they are simply down for a general inspection of the company's property in the Southern country.

The Brotherhood of Trainmen are beginning to arrive from the East, and the chances are that there will be a full delegation present when the convention is called to order in this city next Monday. Popular Eutertainers.

It isn't a very artistic or ideal point of view to take of social life, but 1 honestly believe that more social pleasure, and ease is wrought by eating and drinking than by anything else. The people most popular in social life are those who entertain bounteously. A thin sandwich and one clive and a little "dab" of chicken salad is an admissible offering to one's friends, but where there is food in abundance every where there is food in abundance every-body calls the affair an awfully nice one. Debutantes never eat, but they regret it and make up for lost time when several seasons have calmed the excitement of "going out."

Most men eat at an entertainment and enjoy good things immensely, and it goes without saying that all married folks find infinite satisfaction and bodily comfort in a good supper. People like to co to places

Indeed, he declares that he is scarcely free from one cold before he takes another, and he is always exceedingly careful; it is also a matter of surprise to him that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to abate, and the patient is led to hope that the disease is about to wear off; but another class of symptons soon appear and he learns to his borror that, instead of recovering from the disease.
